

2008 Vegas Skusa Supernationals

Well, Vegas was Vegas again!!!!

This year the Supernationals were held at Rio Hotel and Casino from 20 November thru 23 November, 2008 with 550 Karts entered. The weather was absolutely perfect with highs in 70s and lows in 40s and no rain.

Special thanks to Mike Robbins with Select Shifter for tuning and chassis setups, excellent total driver support, and perfect pit location and accommodations.

Congratulations to all Arrow drivers, everyone made the finals! This is a major accomplishment considering the number of quality of the drivers. The water barriers were formidable and not tolerant of even a slight bump. With the number of drivers per race and speeds, there were lot of on-track incidents. Thankfully, no major injuries were sustained for any of the drivers and no serious fan injuries occurred from either the track or casino/bars.

The results for the four days are summarized below:

	Qualifying	1 st Heat	2 nd Heat	3 rd Heat	Main
Tyler Edwards	29	20	23	22	18
Mitch Carey	42	31	31	35	20
Conner Thomas	28	29	29	30	34
Bobby Lagate	4	40	3	5	7
Pat Chusenberry	28	19	16	11	8
Marc Elliott	21	18	31	16	12
Dave Conyers	31	26	38	25	23
Gunter Desanti	35	28	33	28	36

Again, Barry would like to congratulate all drivers and their support teams for their hard work and endurance and personally thank Mike Robbins for his efforts that made the Supernationals a great, memorable event.
